ADVISORY RESOLUTION ON THE COMPANY'S APPROACH TO EXECUTIVE COMPENSATION

In 2010, the Board of Directors of the Company approved the adoption of an annual non-binding advisory vote by shareholders on executive compensation, commencing with the annual meeting held in May 2010. This gives shareholders a formal opportunity to indicate whether they support the disclosed objectives of the executive compensation plans, and the plans themselves. In 2024, the Company's advisory "say on pay" resolution was approved with 77% of the votes cast in support of the resolution. In 2024, in response to a decrease in the approval rate of the Company's advisory resolution with respect to executive compensation, the Company, through the leadership of the Chair of the Management Resources and Compensation Committee, proactively reached out to engage with its 30 largest institutional shareholders – who collectively represent ~32% of issued shares and ~60% of the votes cast at the Company's annual general meeting to discuss, among other things, the Company's executive compensation program. Further description of this engagement and changes made to the Company's executive compensation program as a result of this shareholder engagement can be found commencing on page 30 of this Circular.

As a shareholder, you have the opportunity to vote FOR or AGAINST the Company's approach to executive compensation through the following resolution:

Resolved, on an advisory basis and not to diminish the role and responsibilities of the Board of Directors, that the shareholders accept the approach to executive compensation disclosed in the Company's Information Circular delivered in advance of the Annual Meeting of Shareholders to be held on May 7, 2025.

As this is an advisory vote, the results will not be binding on the Board of Directors. However, the Board of Directors will take the results of the vote into account, as appropriate, when considering future compensation policies, procedures and decisions.

For information regarding the Company's approach to executive compensation please see "Compensation Discussion and Analysis" commencing on page 29 of this Circular and "Executive Compensation" commencing on page 46 of this Circular. **The Board of Directors recommends that the shareholders vote "FOR" the advisory resolution on the Company's approach to executive compensation.**

VOTING INFORMATION

PRINCIPAL HOLDERS OF VOTING SHARES

SKILLS AND EXPERIENCE

A Board of Directors with a broad mix of skills is best able to oversee the wide range of issues that arise with a company of our size and complexity. Accordingly, each Director is evaluated on the basis of the mix of experience and qualifications they provide. The NCG Committee uses a skills matrix to assist with reviewing the skill set of current Directors as well as identifying Director candidates who best meet the needs of the Company. The matrix outlines the desired complement of skills and areas of expertise considered important to understand and oversee the Company's business. Each Director is required to indicate their level of proficiency for each of the skills and areas of expertise.

Following receipt of the Director self-assessment, the NCG Committee reviews the assessments and analyzes the results. The following matrix summarizes the number of nominee Directors with expert or proficient skills and experience in the areas which the NCG Committee believes are most relevant to the business and governance of the Company.

REPRESENTATION OF DESIGNATED GROUPS

Representation of Designated Groups on the Board of Directors and in Executive Officer Positions

Five of ten (50%) of the Company's current Directors and four of nine (44%) of the nominee Directors represent Designated Groups (as defined in the *Employment Equity Act* (Canada)). Four of 10 (40%) of the Company's current Directors and three of nine (33%) of the nominee Directors are women. One of 10 (10%) of the Company's current Directors and one of nine (11%) of the nominee Directors self identifies as a member of a visible minority. None of the current Directors or nominee Directors self-identifies as an Aboriginal person or a person with a disability.

Two of seven (29%) of the Company's executive officers are women. None of the Company's executive officers self identifies as a member of a visible minority, an Aboriginal person or a person with a disability.

The Board and the Company recognize the benefits of fostering diversity and believe that a Board and executive team made up of highly qualified individuals from diverse backgrounds promotes better corporate governance, performance and effective decision-making.

In furtherance of diversity, the Board has established a formal written Diversity Policy, which among other things, commits that women represent at least 30% of the Directors of the Company. In the event women cease to represent at least 30% of the Directors of the Company at any time (for instance, due to an unplanned departure), the Board will take action to ensure that women represent at least 30% of the Directors of the Company within a reasonable timeframe.

The Board has not adopted formal targets for other Designated Groups with respect to Directors or executive officers at this time. The NCG Committee and the Company, as set out in the Diversity Policy, seek to ensure that Directors and officers have a wide range of skills, experiences and backgrounds to meet the needs of the Company. To support this objective, the NCG Committee and the Company, when seeking candidates for the Board or senior executive positions as part of their process consider: (a) candidates who are highly qualified based on their business experience, functional expertise and personal skills and qualities; (b) candidates with experience and expertise in the industries in which the Company operates - this can take the form of general steel or oil and gas experience or, where practicable, specific experience in a metal service center, oilfield service operation or steel or energy product distribution; and (c) the representation of Designated Groups on the Board and in senior leadership positions.

The Board and Company also, in preparing for recruitment, discuss the current matrix of skill sets of Directors and executive officers and consider whether there are any gaps or specific experiences, skills or viewpoints that ought to be addressed, in the selection of a candidate, to improve corporate performance and decision making.

This process places diversity and inclusion as critical considerations during the recruitment and selection process.

Board Renewal Policy

The Company has adopted a Board renewal policy whereby Directors will not generally stand for re-election after reaching the age of 75 years. In addition, the Company's policy is to target total average tenure of non-executive Directors (i.e. total years of service of non-executive Directors on the Board divided by the number of non-executive Directors) to be approximately 10 years or less. Neither of these two policy objectives represents a bright line test, and the Board may, at any time or from time to time, deviate from these objectives when it believes that it's in the best interest of the Company to do so, but both are designed to encourage and support a continuous active program of Board member renewal, recruitment and retirement planning.

At this time, the Board does not believe that fixed term limits for Directors are necessary or appropriate, nor does it believe that Directors should expect to be re-nominated annually prior to age 75. The Board believes that a balance must be struck between ensuring that there are new ideas and diverse viewpoints at the Board and maintaining the insight, experience and other benefits of continuity contributed by long-serving Directors.

For the purposes of this policy, in the event an executive Director subsequently becomes a non-executive Director, only such individual's tenure as a non-executive Director shall be included for the purposes of calculating the total average tenure of non-executive Directors.

The average tenure of the non-executive Directors as of the date of this Circular is 8.53 years and if all the non-executive Director nominees are elected the average tenure of the non-executive Directors immediately following the Meeting will be 7.57 years. Mr. Reid, who is an executive Director is excluded from the calculation and Mr. Hedges' tenure as a non-executive Director is calculated from May 2, 2018, the date of his retirement as an executive officer of the Company.

The Company also manages Director tenure through a Director evaluation and assessment process, and through a demonstrated and ongoing commitment to the process of Board renewal. The evaluation and assessment process, which includes Board and Committee evaluations and a peer evaluation process, is designed to identify any circumstance in which a Director is not making a sufficient contribution. It is the responsibility of the Company's Board to remove Directors who are not performing, rather than simply relying on Director term limits or a Director being required to resign due to age. Each Director's term expires no later than the next annual shareholders' meeting. The Company also manages Director tenure by disclosing each Director's tenure and age in the Company's Information Circular, allowing shareholders to make an informed decision relating to the election of nominee Directors.

In the past seven years, from January 1, 2019 to the date of the Meeting, six directors have retired from the Board and six new directors have stood for election.

Director Compensation Benchmarking

The Company uses various information sources and resources to monitor the Company's Director compensation practices and benchmark overall pay levels for our Directors, including comparative data from other publicly held industrial and energy services companies in Canada, in each case with annual revenues roughly in the range of 50% to 200% of the annual revenues of the Company. Because there are no public Canadian companies which operate steel service centers or distribute a similar portfolio of energy products, we include in our comparator group select Canadian companies operating in steel production, industrial manufacturing, energy services, forest products, distribution, construction, resource and commercial printing businesses within that same target range of annual revenues. Data from this same group of Canadian comparator companies is also used by the Company to aid in the monitoring of executive compensation practices and benchmark executive officer compensation (see "Compensation Comparator Group" on page 34 of this Circular). The Company's sources also include information and data derived from publicly available documents which reflect current practices, trends and pay levels among a broader group of Canadian public companies of comparable size. We target total Director pay at or below the median level of our Canadian comparator group.

Authority of the Nominating and Corporate Governance Committee

The NCG Committee has the authority to retain advisors to assist in the evaluation of Director compensation. The NCG Committee also has the authority to approve the fees and retention term of any such advisors. The NCG Committee may form subcommittees and delegate authority that it deems appropriate. The NCG Committee has the authority to make recommendations to the Board, but has no decision-making authority other than as set out above.

Deferred Share Unit Plan

We have a Deferred Share Unit Plan ("DSU Plan") for non-executive Directors. A DSU is a unit equivalent in value to one common share based on the Market Price. The "Market Price" for the purposes of grants, redemptions and dividend payments under the DSU Plan is calculated based on the volume weighted average price of a common share on the TSX for the last five trading days immediately prior to the date on which the value of the DSU is determined. DSUs are allocated on the last day of each of March, June, September and December in each year. In 2024, the number of DSUs credited quarterly to each Director's account was determined by dividing \$23,750 (for Directors) and \$33,750 (for the Chair of the Board) by the Market Price at the allocation date. A Director may elect to receive payment in DSUs, rather than cash, for all or a portion of his or her annual Board retainer and/or annual committee chair retainer by providing the required notice to the Company in accordance with the DSU Plan.

Directors are credited with additional DSUs on each dividend payment date in respect of common shares, in an amount that corresponds to the amount of the dividend, based on the number of the DSUs recorded in the Director's account on the record date for payment of the dividend and the Market Price of the common shares on such dividend payment date.

DSUs are redeemable only when a Director leaves the Board, thereby providing an ongoing equity stake throughout the Director's service. The DSU Plan provides Directors with flexibility to redeem their DSUs within a prescribed period of time following the date on which they cease to be Directors. A departing Director, who is a Canadian resident, will receive a cash payment upon redemption which can be no later than December 31 of the first full calendar year following the year in which they cease to be a Director. A departing Director who is a U.S. resident will receive a cash payment upon redemption which can be no later than December 31 of the calendar year in which they cease to be a Director. The value of the cash payment is determined by multiplying the number of DSUs redeemed by the Market Price on the redemption date. Applicable income tax and other withholdings are deducted as required by law.

Deferred Share Units Held

As at March 3, 2025, the non-executive Directors held an aggregate of 360,132 DSUs, which were valued at an aggregate of \$14,556,536 as of such date. The number of DSUs held by each non-executive Director and their value as at March 3, 2025 is provided in the following table.

EQUITY OWNERSHIP OF NON-EXECUTIVE DIRECTORS

The target value of equity ownership is three times the value of the aggregate of the annual Board retainer and the annual DSU grant. As a result, each Director (other than the Chair of the Board) was required to own common shares and DSUs with a combined value of not less than \$570,000 for 2024. The Chair of the Board was required to own common shares and DSUs with a combined value of not less than \$990,000 for 2024. In satisfying the share ownership requirements, each Director must own a minimum of 1,000 Common Shares, which each Director must acquire prior to their first anniversary as a Director of the Company. All Directors have met the equity ownership threshold, except for Ms. Allan, who has until May 2, 2029, Mr. Burton who has until January 1, 2029 and Ms. Johnston who has until May 5, 2026 to reach the equity ownership target.

For purposes of this policy (i) common shares beneficially owned by a Director (directly or indirectly, including with their spouse) are valued at any particular time at the higher of the then current market value and the cost of such shares to the Director; and (ii) DSUs are valued based on the higher of the then current market value of a common share and the Market Price at the date of grant. The following table summarizes the equity ownership of the non-executive Directors and their compliance with the foregoing policy as at March 3, 2025.

Non-Executive Directors	Target Value of Equity Ownership	Number of Shares	Number of DSUs	Combined Value of Shares and DSUs ⁽¹⁾	Meets Guidelines	Percentage of Target
M.E. Allan	\$ 570,000	1,000	1,570	\$ 108,798	pending ⁽²⁾	19%

A. Thabet	570,000	16,490	44,801	2,477,382	yes	435%

⁽¹⁾ The value of the shares and DSUs reflected above are based on the higher of: (a) the closing price of a common share on the TSX on March 3, 2025, of \$40.42, or (b) the cost of such shares or the Market Price of such DSUs at the time of acquisition / grant.

⁽²⁾ Ms. Allan has until May 2, 2029 to reach the equity ownership target, Mr. Burton has until January 1, 2029 to reach the equity ownership target. Ms. Johnston has until May 5, 2026 to reach the equity ownership target.

⁽³⁾ Shares over which Directors have control or direction but which are not beneficially owned are excluded for the purpose of the equity ownership policy. The following shares have been excluded from the above table in relation to Mr. Hedges, 15,000 common shares.

As at March 3, 2025, the nominees for election at the upcoming Meeting of shareholders beneficially own an aggregate of 441,472 common shares and have control or direction over an additional 15,000 common shares, which number includes the common shares owned by the CEO.

DIRECTORS' AND OFFICERS' LIABILITY INSURANCE

In December 2024, we renewed, for the benefit of Russel Metals, its subsidiaries and their Directors and Officers, insurance against liability incurred by the Directors or Officers in their capacity as Directors or Officers of Russel Metals or any subsidiary. The total amount of insurance coverage is \$110 million (inclusive of \$5 million Side A DIC coverage) and, subject to the deductible portion referred to below, up to the full-face amount of the policies is payable, regardless of the number of Directors and Officers involved. The annual premium for the policy year to December 1, 2025, is \$225,294. The policies do not specify that a part of the premium is paid in respect of either Directors as a group or Officers as a group. The policies provide for deductibles as follows:

(i) with respect to our Directors and Officers, there is no deductible applicable; and (ii) with respect to reimbursement of the Company, there is a deductible of \$100,000 per occurrence.

ENVIRONMENTAL (INCLUDING CLIMATE), SOCIAL AND GOVERNANCE RISK OVERSIGHT

Oversight of Environmental (including Climate), Social and Governance matters is a shared responsibility amongst various committees, each of which reports to the Board.

The EMH&S Committee is tasked with overseeing the Company's environmental stewardship, including climate related matters, and health and safety performance. In this capacity the EMH&S Committee reviews the Company's green house gas emissions, air emissions, energy use and compliance with environmental laws. The EMH&S Committee is also responsible for oversight of the Company's health and safety program which includes its: health and safety policies; training practices; reporting and analysis of lost time incidents, total recordable incident rate and other key indicators (frequency, severity, medical aids, first aids, near miss rate); benchmarking against industry peers; and any engagement with or inquiries from applicable governmental entities.

The EMH&S Committee also reviews the Company's public disclosure in respect of such matters including the Company's annual Sustainability Report prepared in accordance with requirements contained in draft National Instrument 51-107 Climate Related Disclosure, which are premised on the Task Force on Climate Related Financial Disclosures (TCFD) framework. Management has presented to the EMH&S Committee an analysis of the Company's sources of greenhouse gas emissions, opportunities to reduce its carbon footprint and benchmarking against industry peers and other comparable Canadian publicly traded companies.

The NCG Committee is responsible for oversight of social and governance matters. This includes diversity, equity and inclusion, social responsibility and ensuring appropriate processes, policies and procedures are in place to ensure the Company's business is conducted ethically and in accordance with applicable law.

The Audit Committee is responsible for oversight of the Company's risk management program. The Company's risk assessment details all material risks to the Company, including ES&G risks and climate related risks as applicable, and the Company's strategies and mitigations in place.

All Committees report to the Board of Directors in respect of their areas of oversight and all such materials presented to the respective Committee are made available to all Directors.

CYBERSECURITY RISK OVERSIGHT

The Board of Directors directly oversees issues related to cybersecurity, given the nature of the risk, as opposed to delegating oversight to a specific committee. The Board receives a quarterly report on Cybersecurity from management, which is modeled on the National Institute of Standards and Technology (NIST) Cybersecurity Framework.

Management provides a dashboard in line with the NIST Framework that includes achievements, initiatives underway and upcoming plans to identify, protect, detect, respond and recover in the event of and in respect of cybersecurity risks. Management also reports to the Board any material cybersecurity incidents, if applicable, and the Board has the opportunity to discuss these with and question management.

COMPENSATION DISCUSSION AND ANALYSIS

This Compensation Discussion and Analysis describes (a) our compensation philosophy; (b) the decision making process relating to our compensation policy; (c) the significant elements of compensation awarded to, earned by, paid to or payable to the Company's President and CEO, the Executive Vice President and Chief Financial Officer ("CFO") the Vice President and Chief Operating Officer ("COO") and each of the next two named executive officers of the Company (collectively, the "Named Executive Officers" or "NEOs") for the year ended December 31, 2024; (d) compensation governance; and (e) our assessment of the risks related to compensation policies and practices.

COMPENSATION PHILOSOPHY

The MR&C Committee reviews and makes recommendations to the Board for the specific compensation arrangements of the CEO, the CFO and the COO; the Company's overall compensation philosophy; and its incentive-based cash compensation plans and equity-based compensation plans. Our executive compensation policies and practices are designed:

- i. to attract, motivate, and retain highly competent management by offering a competitive target level of total compensation;
- ii. to motivate, recognize and reward superior performance by maintaining a high proportion of executive pay at risk and linking it to key performance measures, including return on invested capital, earnings per share ("EPS"), and net income. The ultimate payout of equity incentives are further linked to total shareholder returns ("TSR"), both on an absolute and on a relative basis;
- iii. to foster commitment to the Company and alignment with shareholder interests through the effective and judicious use of earnings-based and equity-based incentives; and
- iv. to strike an appropriate balance between multiple performance metrics, short and long-term incentives, cash vs. equity-linked instruments and payment methodologies (example: one-year earnings per share performance, three-year return on invested capital, absolute share appreciation and relative total shareholder return).

Pay for performance is an important principle of our executive compensation philosophy, with the result that, at virtually all levels throughout the Company, variable compensation can represent a substantial proportion of total compensation in a successful year. Our objective is to achieve competitive compensation for key executives over the course of business cycles.

Our compensation structure consists of three main elements: (i) base salary; (ii) cash bonus; and (iii) equity-linked incentives, in the form of RSUs, share options, SARs and PSUs. The compensation plan is more heavily weighted to the performance driven incentives, with less weight on base salary, particularly for the C-Suite officers. The executive compensation plans are regularly reviewed to assess outcomes and market competitiveness.

The level of cash bonus for each of the CEO, CFO and COO is determined with reference to two metrics that reflects both a short-term metric and a long-term metric being: (i) the prior year's EPS; and (ii) the Company's average return on invested capital for the preceding three years ("ROIC").

The level of RSU grant for each of the CEO, CFO and COO is determined with reference to the Company's average ROIC over three years, and the ultimate payout of the RSU grant is linked to the future TSR of the Company's shares. The annual PSU grant for each of the CEO and CFO for which the ultimate payout, if any, of the PSU is conditional on the Company's TSR relative to

that of twelve peers comprising the PSU Comparator Group, therefore making it contingent upon future performance.

We believe that ROIC, EPS and net income are the most appropriate metrics for assessing the Company's overall performance, incentivizing corporate management and aligning with a pay for performance model, particularly when considering the inclusion of equity-linked instruments whose payout is linked to the future TSR the Company's shares both on an absolute basis and relative to that of the PSU Comparator Group.

We are a collection of businesses with common characteristics; however, the customers, suppliers, industries served and goods and services offered by the various business units can vary widely from region to region and business unit to business unit. It is for that reason we have a decentralized management structure, which places significant control and decision making authority and accountability in the hands of local management and has enabled us to remain responsive to opportunities and customers' needs in each region in which we operate.

The profitability potential of the Company and its various business units is correlated to the price of steel and the Company's ability to navigate the steel pricing cycle. It is also influenced by the general levels of industrial activity in the regions in which we operate. We are focused on maintaining profitability throughout the economic cycle by stressing financial discipline. Accordingly, we incentivize and reward each business unit based on its return on net assets, while the CEO, CFO, COO and most corporate employees are incentivized and rewarded based on the Company's EPS or net income, each of which is an appropriate proxy for an aggregation of the return on net assets of each of the business units. In addition, the CEO, CFO and COO compensation programs contain a second metric, ROIC, which measures how effectively management is utilizing capital to generate suitable returns over the cycle. By utilizing a three-year average for ROIC, it becomes a long-term measurement and metric for purposes of the cash bonus to balance against the other component of cash bonus which is based on one-year's EPS. Each of the EPS and ROIC metrics offer an equivalent cash incentive opportunity.

The Company's EPS, net income and ROIC performance thresholds ensure that cash bonuses will not be paid to senior management when the Company does not meet its minimum financial performance targets. We do not believe that cash bonuses should be paid simply because the Company outperforms its peers in a declining market if the shareholders do not benefit through the Company's financial results.

The Company also has caps in place on incentive compensation for the CEO, CFO, COO and corporate employees to protect against excessive compensation rewards resulting primarily from cyclical increases in commodity prices.

While the MR&C Committee and the Board have the right to take discretionary action when in the best interests of the Company, the Company has been consistent in its approach and application of the incentive compensation structure throughout the economic cycle so as to link pay with performance. In past economic downturns we have not adjusted our targets to make the incentive compensation more easily achieved for our Named Executive Officers.

Historically, our annual advisory vote on executive compensation has received strong shareholder approval, averaging ~91% between 2019 and 2023. In 2024, the approval rate fell to ~77%, prompting the Company to take proactive steps to understand and address shareholder concerns.

Shareholder Outreach

Under the leadership of the Chair of the MR&C Committee, the Company proactively reached out to engage with its 30 largest institutional shareholders, who collectively represent ~32% of the shares outstanding and ~60% of the votes cast at the Company's annual general meeting to discuss, among other things, the Company's executive compensation program. Insights gathered

during these discussions were shared by the Chair of the MR&C Committee with the MR&C Committee and the Board to inform governance and compensation design strategies. We appreciate the time and effort that our shareholders spent sharing their insights.

Enhancements to the Executive Compensation Plan

In direct response to shareholder outreach and feedback regarding the 2023 compensation plan's reliance on a single EPS metric, the Company introduced significant changes in 2024 to better balance long-term performance and align with shareholder priorities. In addition, the Company made these changes with immediate effect for the 2024 fiscal year in direct response to shareholder feedback.

The Board of Directors approved, on the recommendation of the MR&C Committee, the following changes to the executive compensation program for the C-Suite as a direct result of the shareholder engagement:

1. **Incorporated Long-Term ROIC as a Second Metric:** The quantum of the cash bonus is no longer based solely on a single short-term metric - one year EPS. The cash bonus was split into two metrics with each offering an equivalent incentive opportunity (i) EPS (a one-year short-term metric); and (ii) ROIC (a three-year long-term metric). The ROIC metric measures the Company's average return on invested capital for three years and is designed to measure how effectively management is utilizing capital. The ROIC thresholds were set based on historical analysis and back-testing with the maximum payout available if the Company achieves a three-year rolling average ROIC of 18%. The quantum of the RSU grant is similarly based upon ROIC.
2. **Raised the EPS Thresholds:** The EPS threshold that triggers a maximum bonus was raised to \$4.00 in 2024 from \$3.51 in 2023 and from \$3.23 in 2021. Other changes were implemented across the EPS grid in order to ensure that the EPS thresholds remain sufficiently challenging.
3. **Implemented a Performance Share Unit to Reflect Relative TSR Performance:** PSUs were awarded as part of the CEO and CFO compensation program in 2024. PSU payout structure ranges from 0% to a maximum of 200%, emphasizing performance accountability. The PSU grants are designed to represent a majority of the CEO and CFO's long-term share-based incentive compensation both: (i) at the mid-point (EPS \$2.00; ROIC 10%); and (ii) on average throughout the long-term incentive program.

The incentive compensation plans for each of the CEO, CFO and COO are summarized under "Incentive Compensation Tables" commencing on page 35 of this Circular.

COMPENSATION DECISION MAKING PROCESS

We have a comprehensive process for making decisions about compensation arrangements for our executive officers and senior employees. The table below illustrates the different inputs used to determine the compensation program and the flow of information, recommendations and approval by the Board of Directors.

Compensation Comparator Group

The MR&C Committee uses various information sources and resources to monitor the competitive position of the Company's salaries, cash incentives and share-based incentives, and to assess the effectiveness of the Company's incentive plans in contributing to corporate performance. The MR&C Committee uses comparative data to ensure the ability of the Company to attract, retain and motivate key executives. The comparator group is comprised of publicly held industrial and energy service companies in Canada with annual revenues roughly in the range of 50% to 200% of the annual revenues of the Company and United States companies operating in the metals and energy products distribution industries. Due to the fact there are no public Canadian companies which operate steel service centers or distribute a similar portfolio of energy products, we include in our comparator group select public Canadian companies operating in steel production, industrial manufacturing, energy service, forest products, distribution, construction, resource and commercial printing businesses with annual revenues within that same target range. The Canadian comparator group is the primary benchmark used for determining the CFO's compensation.

The U.S. companies in our comparator group include publicly traded companies operating in various aspects of the metals business in North America, including metals service centers and energy products distribution. This group includes most of our key North American industry competitors in the segments in which we operate. Reliance Inc. is included in our performance assessment process and PSU Comparator Group but is not included in our compensation benchmarking as its revenues are outside of our targeted peer range.

The US peer group is the primary benchmark used for determining the CEO's compensation. This approach recognizes Mr. Reid's more than 30 years industry experience in the United States and that he is a U.S. resident. In addition, it reflects the Board's view of the importance of maintaining our ability to attract and retain highly qualified and experienced industry personnel at the highest level in our organization in the competitive North American environment in which we operate. For our COO, Mr. Maclean, a hybrid peer group is utilized containing chief operating officers of metals service centers from our US comparator group as well as senior operating officers from the industrial companies which comprise our Canadian comparator group.

Our executive compensation policies provide for total direct compensation levels which, at target earnings levels, are intended to be competitive with similar positions in the comparator group over economic cycles. Individual levels, which are reviewed annually, may vary from this objective depending upon the particular experience and other qualifications of the individual, sustained performance level, length of service and other relevant factors. We use comparator group information to assist in reviewing compensation levels and establishing compensation arrangements appropriate to our circumstances. We do not set compensation by using a formulaic approach to the benchmarks relative to the comparator group or any particular company in the comparator group.

The companies in our executive compensation comparator group consist of:

INCENTIVE COMPENSATION STRUCTURE OF CEO, CFO, COO, AND NAMED EXECUTIVE OFFICERS

The following tables disclose the incentive compensation program for the CEO, CFO and COO for 2024.

Incentive Compensation Tables

The cash bonus and RSU awards for the CEO, CFO and COO are tied to EPS and ROIC. The PSU awards are designed to represent both (i) a majority of the long-term share-based incentive compensation at the mid-point (64% and 53% for the CEO and CFO respectively); and (ii) on average throughout the long-term incentive compensation program. The RSUs, PSUs, share options and SARs may result in a different payout on the exercise or expiry dates, as the share value changes over the period from grant to exercise or redemption.

The following table summarizes the incentive compensation structure for the CEO for 2024.

CEO - 2024

No cash bonus or RSU incentive awards will be granted under these plans when EPS is below \$0.50 and ROIC is below 5%. Where EPS is above \$0.50 and ROIC is above 5% and between the other thresholds set out in the above tables, the size of the grant is proportionately increased. These structured incentive awards are capped at EPS of \$4.00 and ROIC of 18%.

The Board of Directors has capped the number of SARs issuable to Mr. Reid at 120,000 SARs per year and the number of share options grantable to Mr. Juravsky at 67,200 per year in aggregate. Mr. Juravsky is entitled to elect to allocate the aggregate \$210,000 value of his annual equity award between share options and RSUs. To the extent he elects to receive a portion of the award in RSUs, the maximum number of options that may be issued is proportionately reduced.

The annual cash incentive for any year is typically paid in the first quarter of the following year, after the audited financial statements are approved by the Board of Directors. Similarly, the performance incentive RSUs and PSUs are awarded annually, in the first quarter of each year.

The dollar values of grants of SARs or share options, as applicable, made to Mr. Reid and Mr. Juravsky for 2024 were determined based on the incentive compensation tables above. The number of SARs and share options granted in each case was determined based upon the dollar value specified divided by the Black-Scholes value per share on the date of grant. The dollar values and the number of SARs or share options were recommended by the MR&C Committee and approved by the Board.

The Company has in place a policy whereby the Board may require Mr. Reid, Mr. Juravsky and Mr. Maclean to reimburse any overpaid incentive compensation based on certain financial results which are later restated.

Other Named Executive Officers

Mr. Bailey, as Director of Service Center Operations, receives an annual cash incentive based on the return on net assets of certain of the Company's metals service centers.

Mr. MacDermid, as Vice President Risk Management & Legal, participates in the corporate net income incentive plan. The corporate net income incentive plan is an annual cash incentive plan based on reported net income, to a maximum amount of the respective year. Based on the net income achieved, a pool of funds is divided among all corporate employees. The percentage participation of each person in the net income incentive plan, including Mr. MacDermid, is determined on an annual basis by the CEO and the CFO based on a variety of relevant factors, including level of responsibility and performance in the year.

For Mr. Bailey and Mr. MacDermid, an overall pool of RSUs available for issuance to employees as determined annually by the Board of Directors. The amount of the annual grant is dependent on the level and performance of the employee.

Responsibilities of the Management Resources & Compensation Committee

The MR&C Committee's purpose is to assist Board oversight of executive compensation and management succession planning. In doing so, the MR&C Committee is responsible for (i) independently reviewing and making recommendations to the Board on the CEO's total compensation; (ii) reviewing and making recommendations to the Board concerning total

compensation of other C-Suite executive officers; (iii) recommending and monitoring equity ownership policies; (iv) overseeing any compensation related changes to the design of the Company's pension plans and 401k plans; (v) reviewing the risk implications of the Company's compensation policies and practices; (vi) reviewing compensation disclosure in public documents, including the Compensation Discussion and Analysis, for inclusion in this Circular in accordance with applicable rules and regulations; and (vii) making recommendations to the Board with respect to management succession, including the development and implementation of an effective succession plan for the position of CEO and other senior management positions.

Policies and Practices Used to Determine Executive Compensation

Our compensation policies and practices for our executive officers have been described under "Compensation Philosophy" commencing on page 29 of this Circular. The MR&C Committee reviews and makes recommendations to the Board regarding executive officer compensation with reference to comparator groups of companies as appropriate. The MR&C Committee completed an extensive executive compensation benchmarking analysis for the CEO and CFO in 2021. This process, as extensively described in our 2021 Circular, resulted in changes to the reward structure to better align short and long-term incentives to the respective comparator groups based upon the level of the Company's performance. In 2023, the MR&C Committee further reviewed the components of the long-term incentive program for the CEO and CFO. This review resulted in the introduction of PSUs as part of the CEO and CFO long-term incentive compensation program beginning in 2024. In 2024, following a decline in the level of shareholder support for the Company's non-binding resolution on executive compensation, under the leadership of the Chair of the MR&C Committee, the Company proactively reached out to engage with its 30 largest institutional shareholders, who collectively represent ~32% of the shares outstanding and ~60% of the votes cast at the Company's annual general meeting to discuss, among other things, the Company's executive compensation program. As a result of these discussions, the Board made the changes to the executive compensation program described on page 31 of this Circular, which included: incorporating a long-term return on invested capital as a second metric; adjusting the EPS thresholds so as to make the maximum threshold higher and more challenging; and implementing the previously announced performance driven payouts under the PSU Plan.

Authority of the Management Resources & Compensation Committee

The MR&C Committee has the authority to retain advisors to assist in the evaluation of CEO or other senior executive compensation. The MR&C Committee also has the authority to approve the fees and retention terms of any such advisors. The MR&C Committee may form subcommittees and delegate authority that it deems appropriate. The MR&C Committee has the authority to make recommendations to the Board, but has no decision-making authority other than as set out above.

Succession Planning

The Board believes that its single most important decision is the selection of the CEO. In addition, the Board believes that the depth and strength of our management team has been critically important to our success as a top performing company in a cyclical industry. Accordingly, the Board is diligent in its discussions of management succession planning for the CEO, corporate senior managers and the senior managers of our business units, who are key to our decentralized management structure.

In camera Board meetings are held with and without the CEO at least annually, to discuss succession plans.

The Board regularly interacts with senior management and key operations staff members through formal presentations to the Board, facility tours and other events as part of the Board meetings to enhance its familiarity with management personnel.

We have in place educational programs, an internal next generation leadership program and other types of courses to ensure our employees are prepared for higher levels of responsibility. The Board annually reviews our pay for performance, pension and other compensation programs to ensure their ongoing effectiveness.

Our culture stresses developing our employees and promoting from within. The current CEO and the majority of senior managers in our business units have been promoted from within the Company. Each of the last three Chief Executive Officers of the Company, preceding Mr. Reid, were also promoted from within the Company.

On an annual basis the Board of Directors reviews succession plans for the position of CEO and establishes and oversees processes for evaluating the performance of the CEO. The MR&C Committee reviews with the CEO the succession plans for senior management and the CEO's assessment of their performance. The Board of Directors also approves the appointment of the CFO and all other officers of the Company.

Executive Compensation Consultant

The MR&C Committee has received periodic information and advice from independent executive compensation consultants. In 2023 and 2024, Southlea Group advised the MR&C Committee in connection with: (i) an analysis of the Company's peer group incentive compensation, with a particular focus on PSUs; (ii) reviewing and analyzing peer companies to be considered for relative comparison purposes; (iii) defining and calculating relative performance and analyzing multipliers utilized; (iv) back-testing PSUs and the impact on total compensation; and (v) scenario testing the potential range of payouts of the PSUs under a variety of scenarios. Southlea Group was first retained by the MR&C Committee in 2023.

The following table summarizes the executive compensation consulting and other fees charged by Southlea for their services during the 2024 and 2023 fiscal year.

Service	Fiscal Year 2024	Fiscal Year 2023
Executive Compensation Related Fees	\$2,190	\$40,000
All Other Fees	-	-
Total	\$2,190	\$40,000

All Other Fees

Southlea is prohibited from doing any other work for the Company or any of its affiliates without the prior express authorization of the Chair of the MR&C Committee. In the fiscal years of 2024 and 2023, no additional services were undertaken by Southlea or any other executive compensation consultant.

RISK MANAGEMENT AND RISKS RELATED TO COMPENSATION POLICIES & PRACTICES

We have an enterprise risk management program which is discussed in our most recent Annual Information Form under the heading "Risk Management and Risks Affecting Our Business". An enterprise risk management assessment and report including mitigation strategies have been previously presented to the Board. The executive team regularly updates the Board at and between quarterly Board Meetings on market conditions, our operations and any other material changes in the business or emerging risks which may impact the Company.

Our committees also monitor risk across the organization and the allocation of responsibility amongst the Board and its committees is as follows:

Board or Committee	Areas of Responsibility
Board of Directors	Overall responsibility for risk oversight at the Company and specific responsibility for strategic business risks.
Audit Committee	Oversees financial risks including hedging, tax and accuracy of financial reporting.
Environmental Management and Health & Safety Committee	Oversees health, safety, environmental, climate risk and related operational risks.
Management Resources and Compensation Committee	Oversees compensation risk, talent management risk and succession risk.
Nominating and Corporate Governance Committee	Oversees governance and management to ensure appropriate policies, processes and procedures are in place. Oversees board renewal risk.

We have had a pay for performance philosophy for many years. The compensation plans are regularly reviewed to determine whether they reward participants for the desired outcome. The plans are also assessed for their ability to protect against risks that could have materially adverse consequences for the Company. Set out below are some of the components of our compensation policy and a description of how these components serve to safeguard against the taking of undue risk.

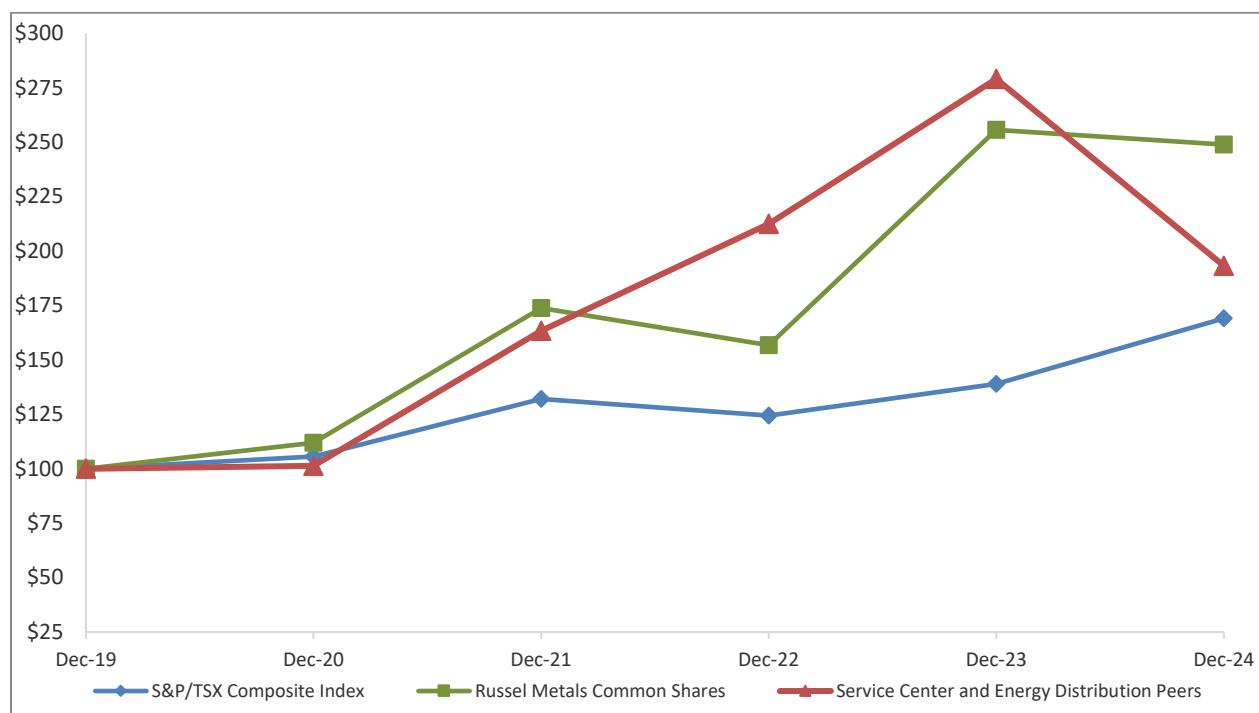

Compensation Plans – Risk Safeguards	
Key Component	Description
Profit Driven	Variable compensation plans are based on either EPS, net income, return on net assets or ROIC. This design considers both earnings and capital requirements. As we are a working capital-intensive company, profit sharing needs to consider cost of capital and measure the effectiveness of management's capital utilization.
Plans are formula driven from financial statement results	Incentive plans have a formula which can be reviewed and determined based on actual results.

Compensation Plans – Risk Safeguards	
Key Component	Description
Plans have thresholds and maximum payout limits, subject to discretionary rewards above or below	The compensation plans for the CEO, CFO, COO and corporate employees have thresholds and caps. The caps ensure that management is not incented to take undue risks.
Limits on number of SARs issuable for CEO and Share Options issuable for CFO	Regardless of the dollar entitlement to SARs and share options, a maximum of 120,000 SARs and 67,200 share options are issuable in any given year to the CEO and CFO, respectively, and any excess is forfeited. This limitation protects against unusual volatility in the share price and Black-Scholes calculation outcomes.
Clawback policies that require reimbursement of overpaid incentives	The CEO, CFO and COO are subject to clawback provisions if the Company's results are later restated due to an error in reporting.
Mix of short and long-term incentives	The CEO and CFO receive a significant portion of their variable compensation in RSUs, PSUs, SARs or share options. RSUs are subject to changes in the TSR for approximately three years after the date they are granted. PSUs are subject to changes in the TSR and relative TSR performance versus the PSU Comparator group for approximately three years after the date they are granted. SARs and share options are long-term incentives exercisable over 10 years and are designed to encourage and reward long-term thinking and value creation.
Delayed Vesting	SARs and share options each vest as to 25% of the original grant on each of the first, second, third and fourth anniversary of the date of grant. Unless otherwise specified by the Board, RSUs and PSUs vest as to one-third on each of the first anniversary of the date of grant, second anniversary of the date of grant and the expiry date.
Relative Performance Metric	The long-term incentive compensation program contains a relative performance metric, in addition to the existing absolute company specific performance metrics. The amount ultimately received under a PSU is linked to the Company's TSR relative to that of the PSU Comparator Group. Accordingly, if the Company fails to perform in line with or better than the PSU Comparator Group, (our TSR falls in the fourth quartile), there is no payout under the PSUs.
Equity ownership requirements help align executive officer interests with those of the shareholders	Within prescribed time limits, the CEO is required to own a combination of common shares, RSUs and PSUs valued at five times his base salary and the CFO and COO are required to own a combination of common shares, RSUs and PSUs valued at two times their base salary.
Role of MR&C Committee and the Board of Directors in Risk Assessment	<p>The MR&C Committee is composed entirely of independent Directors. It reviews and evaluates the appropriateness of performance objectives and their alignment with compensation. The MR&C Committee annually reviews the compensation of the top paid executives, managers and sales staff.</p> <p>CEO, CFO and COO compensation plans are subject to Board approval.</p> <p>Communication is achieved, in part, by cross-committee membership. The MR&C Committee also reports regularly to the full Board of Directors.</p>

Management and the Board of Directors have also implemented a number of policies which mitigate undue risk taking by executive officers. These policies require Board approval of: (i) capital expenditures or acquisitions in excess of CDN\$6.5 million or US\$4 million; (ii) the lease of property or buildings where: (a) the lease commits to the expenditure of more than \$5 million during the initial term of the lease; or (b) the average lease payments during the initial term exceed \$1.5 million per year (in each case, in the local currency where the expenditure is being made); (iii) material changes to banking and debt agreements; (iv) derivatives other than back-to-back foreign exchange hedges on inventory purchases; and (v) changes to the Company's investment policy.

EXECUTIVE COMPENSATION

SUMMARY COMPENSATION TABLE OF NAMED EXECUTIVE OFFICERS

The following table provides a summary of annual compensation for the last three fiscal years for the CEO, CFO, COO and other Named Executive Officers of the Company. The amounts shown in the table below are in Canadian dollars. John G. Reid and Daniel Bailey are U.S. residents and are compensated in U.S. dollars. The amounts shown in the table for Mr. Reid and Mr. Bailey have been converted to Canadian dollars on the basis outlined in Note 1 of the table. The weakening of the Canadian dollar over this three-year period impacts the reporting of compensation in the table below. For instance, Mr. Reid's 2024 total compensation, if reported at the 2022 exchange rate, would be \$11,635,413 which is \$610,509 or 5% less than reported and would represent a decrease in total compensation as compared to each of 2023 and 2022.

Group Term Life Insurance and Employee Share Purchase Plan benefits are generally available to all employees.

EQUITY OWNERSHIP POLICY – CEO, CFO AND COO

We have a policy for our CEO, CFO and COO requiring them to own a specified value of common shares, RSUs and PSUs combined. The policy requires the CEO to own an aggregate of common shares, RSUs and PSUs valued at not less than five times his annual salary; and for the CFO and COO to own an aggregate of common shares, RSUs and PSUs valued at not less than two times their annual salary. The current holdings of the CEO, CFO and COO meet their respective ownership requirements, although the future redemption of RSUs or PSUs may decrease the total value held.

The purpose of these policy requirements is to more closely align the interests of the CEO, CFO and COO with those of the Company's shareholders. For purpose of this policy, common shares are valued at the higher of market value and the cost to the executive thereof, RSUs and PSUs are valued at the higher of the market value thereof and the Market Price (as such term is defined on pages 52 and 53 of this Circular) at the time of grant.

The table below shows the number and value of shares and RSUs owned, as of March 3, 2025, by the Company's CEO, CFO and COO.

Name	2024 Base Salary	Multiple	Target Value of Equity Ownership	Value of Shares Held	Value of RSUs Held	Value of PSUs Held	Combined Value of Shares, PSUs and RSUs Held ⁽¹⁾⁽²⁾	Meets Guidelines	% of Target

⁽¹⁾ The value of the shares, RSUs and PSUs reflected above are based on the higher of: (a) the closing price of a common share on the TSX on March 3, 2025 of \$40.42; or (b) the cost of such shares or the Market Price of such RSUs and PSUs at the time of acquisition / grant.

HEDGING OF COMPANY SECURITIES PROHIBITED

As set out in our Insider Trading Policy, the Company does not allow insiders to hedge their position in shares, share options, SARs, DSUs, RSUs, PSUs or other debt instruments of the Company by use of any financial instrument which would include but is not limited to puts, calls, warrants or short selling, designed to insulate the holder from a change in the market value of the stock of the Company.

EMPLOYEE SHARE AND OPTION BASED PLANS

The Company has the following employee share-based compensation plans, which are described below: Employee Share Purchase Plan, Share Option Plan, Share Appreciation Rights Plan, Restricted Share Unit Plan and Performance Share Unit Plan.

EMPLOYEE SHARE PURCHASE PLAN

We have an Employee Share Purchase Plan to provide our employees with the opportunity to purchase common shares, further aligning participants with the interests of shareholders and allowing them to share in the financial success to which they contribute. New employees may join the Employee Share Purchase Plan on the first day of the month following the completion of three months of employment. Employees may make contributions to the Employee Share Purchase Plan through payroll deductions. For employee contributions of up to 5% of their base pay, we contribute an amount equal to one third of the employees' contributions.

All contributions to the Employee Share Purchase Plan are used to purchase common shares in the market at the then current share price. Contributions made by the Company vest immediately. Employees may withdraw all of the contributions made in their name (including our contributions) at any time. If an employee withdraws the Company's portion of the contribution made in his or her name, he or she may not participate in the Employee Share Purchase Plan for six months.

The Employee Share Purchase Plan is available to the majority of our employees in Canada and the United States and is independently administered.

SHARE OPTION PLAN

We have not granted options under our share option plan (the "Share Option Plan") since 2021. Starting in 2014 most of our employees were granted RSUs in lieu of participation in the Share Option Plan. As a result, all options granted prior to 2014 have since been exercised, forfeited or cancelled. Effective February 2017, Mr. Reid, our CEO, began to receive SARs in place of share options (see "Share Appreciation Rights Plan" on page 51 of this Circular). Effective February 2022, Mr. Juravsky, our CFO, is entitled to elect to allocate the aggregate \$210,000 value of his annual equity award between share options and RSUs and since such time has elected RSUs.

The Share Option Plan has a fixed number of shares issuable thereunder. The aggregate number of shares reserved for issuance is set at a maximum of 4,498,909 common shares, representing 8% of the issued and outstanding common shares, as at December 31, 2024. At that date, there were 920,236 common shares available for issuance under the Share Option Plan, representing 2% of the then issued and outstanding common shares.

Share options granted vest as to 25% of the original option grant on each of the first, second, third and fourth anniversary of the date of grant, unless a different vesting schedule is determined by the Board. Share options granted are not transferable and have a maximum term of ten years. The exercise price of an option is determined based upon the volume weighted average price of a common share on the TSX for the last five business days immediately preceding the grant date.

On termination of employment, unvested share options are forfeited, and vested share options may be exercised within 30 days following the date of termination subject to an extension provided under the plan if the period falls within a blackout period. The Board of Directors at its discretion can extend such period in certain situations including retirement of an employee to not later than the earlier of original expiry date of the share options and the fourth anniversary of termination of employment; such extension is automatic in the event the individual retires and is at least 65 years of age. Upon death of an eligible person, the deceased participant's legal personal representative may exercise all share options that vest in accordance with the terms of the Share Option Plan for a period of 18 months following death.

The Share Option Plan provides that (a) the number of common shares reserved for issuance pursuant to share options granted under the Share Option Plan or otherwise granted under all other share compensation arrangements to insiders (as defined in the Share Option Plan) may not exceed 10% of the issued and outstanding common shares of the Company, and (b) the issuance of common shares to insiders under the Share Option Plan and under all share compensation arrangements within a one year period may not exceed 10% of the issued and outstanding common shares of the Company.

The Board of Directors may amend the plan from time to time. Prior shareholder approval is required for certain material amendments to the plan, including to increase the number of common shares issuable under the plan, to reduce the option price or extend the exercise period of an option, to cancel and reissue any option or to modify the persons that are eligible to participate under the plan.

Shareholder approval is not required for amendments of an administrative nature, amendments to ensure compliance with applicable laws or other regulatory requirements, amendments to add a cashless exercise feature to the plan or amendments to change the vesting or termination provisions of the plan or any option (provided it does not entail an extension beyond the originally scheduled expiry date for the given share options other than in the case of a trading blackout). The Board of Directors may also suspend, discontinue or terminate the plan at any time.

Gain by Named Executive Officers from the Exercise of Share Options

In 2024, Mr. Juravsky exercised 23,466 share options, which resulted in a gain upon exercise of \$506,499, before applicable taxes.

SHARE APPRECIATION RIGHTS PLAN

We have established a share appreciation rights plan ("SARs Plan") for our employees and officers. The plan has been established to offer long-term incentives to senior management and allow us to attract and retain new candidates to these positions. To date SARs have only been issued to our CEO. On February 25, 2025 Mr. Reid was issued 47,262 SARs, valued at \$426,300 (US\$300,000) in his capacity as CEO, pursuant to the Company's long-term incentive compensation program for that position.

SARs vest, in accordance with the terms of the SARs Plan, as to 25% of the original SARs granted on each of the first, second, third and fourth anniversary of the date of grant. SARs granted are not transferable and have a maximum term of ten years. The exercise price of a SAR is determined by the volume weighted average price of a common share on the TSX for the last five business days immediately preceding the grant date. SARs are cash settled by the Company and the recipient is entitled to cash in the amount by which the market value of the shares on the date of exercise exceeds the issue price of the applicable SAR.

On termination of employment, unvested SARs are forfeited and vested SARs may be exercised within 30 days following the date of termination subject to an extension provided under the plan if the period falls within a blackout period. The Board of Directors, at its discretion, can extend such period in certain situations including retirement of an employee to not later than the earlier of original expiry date of the SAR and the fourth anniversary of termination of employment; such extension is automatic in the event the individual retires and is at least 65 years of age. Upon death of an eligible person, the deceased participant's legal personal representative may exercise all SARs that vest in accordance with the terms of the plan for a period of 18 months following death.

The Board may amend the plan from time to time and may also suspend, discontinue or terminate the plan at any time.

RESTRICTED SHARE UNIT PLAN

We have a restricted share unit plan (the "RSU Plan"), to provide long-term incentive compensation to our CEO, CFO, COO and other employees for their continued efforts in promoting the growth and success of the Company and assist in attracting and retaining senior management. The Board has authority, in its sole discretion, to determine the eligible full time employees to whom RSUs may be granted and the number of RSUs to be granted to any participant, other than the CEO, CFO and COO whose RSUs are determined by the "Incentive Compensation Tables" commencing on page 35 of this Circular.

An RSU is a unit equivalent in value to one common share based on the Market Price. Under the RSU Plan, the expiry date for any RSU shall be the first to occur of: (i) December 5 of the third calendar year following the year in which the services were provided to which such grant of RSUs relates; and (ii) the third anniversary of the grant date. Unless otherwise specified by the Board, RSUs shall vest as to one-third on each of the first and second anniversaries of the date of grant and the remaining one-third on the expiry date. On the expiry date of a vested RSU, the Company is obligated to pay to the participant cash in an amount equal to the Market Price of a common share at such expiry date. "Market Price" for purposes of grants, redemptions and dividend payments under the RSU Plan is calculated based on the volume weighted average price of a common share on the TSX for the last five business days immediately preceding the date in question.

At the time of an RSU grant, the Board has the authority to change both the grant date and the vesting period. If a participant ceases to be an employee for reasons other than death or retirement at or before age 65 (i) RSUs that are then vested will be paid within 25 days following the date the participant ceased to be an employee and in any event no later than December 31 of the year the participant ceased to be an employee; and (ii) RSUs that are not then vested shall terminate and be forfeited. On the death of a participant or on the retirement of a participant at or after age 65, any unvested RSUs will vest immediately and will be paid within 25 days following the date of death or retirement but no later than December 31 of the year of death or retirement. The Board may, in its discretion, following the grant date but prior to a vesting date, designate an earlier vesting date for all or any portion of the RSUs then outstanding and granted to a participant.

Participants in the RSU Plan are credited with additional RSUs on each dividend payment date in respect of common shares, in an amount that corresponds to the amount of the dividend, based on the number of RSUs recorded in the participant's account on the record date for the payment of the dividend and the Market Price of the common shares on such dividend payment date.

RSU GRANTS – DECISION MAKING PROCESS

Management makes its recommendations to the MR&C Committee as to the values of RSUs to be granted to each eligible employee and in turn the MR&C Committee makes its recommendations to the Board of Directors for its approval. In formulating its recommendations, the MR&C Committee takes into consideration the recommendations of the CEO concerning employees other than the CEO, CFO and COO whose RSUs are based on the values disclosed in the Incentive Compensation Tables commencing on page 35 of this Circular. The MR&C Committee also takes previous incentive awards into account when considering new awards. Only bona fide full-time employees of the Company and its subsidiaries are eligible to participate. An employee's level of responsibility and performance are the principal factors considered by the CEO and MR&C Committee when recommending individual employee grants.

PERFORMANCE SHARE UNIT PLAN

In 2024, we established a performance share unit plan (the "PSU Plan"), to provide long-term incentive compensation to our CEO, CFO and other employees for their continued efforts in promoting the growth and success of the Company and assist in attracting and retaining senior management. The Board has authority, in its sole discretion, to determine the eligible full-time employees to whom PSUs may be granted and the number of PSUs to be granted to any participant, other than the CEO and CFO whose PSUs are determined by the "Incentive Compensation Tables" commencing on page 35 of this Circular.

A PSU is a unit equivalent in value to one common share based on the Market Price. Under the PSU Plan, the expiry date for any PSU shall be the first to occur of: (i) December 5 of the third calendar year following the year in which the services were provided to which such grant of PSUs relates; and (ii) the third anniversary of the grant date. Unless otherwise specified by the Board, PSUs shall vest as to one-third on each of the first and second anniversaries of the date of grant and the remaining one-third on the expiry date. "Market Price" for purposes of grants, redemptions and dividend payments under the PSU Plan is calculated based on the volume weighted average price of a common share on the TSX for the last five business days immediately preceding the date in question.

On the expiry date of a vested PSU, the Company is obligated to pay to the participant cash in an amount equal to the Market Price of a common share at such expiry date multiplied by the Performance Modifier. "Performance Modifier" for the relevant performance period (typically a 35 month measurement period commencing at the beginning of the year in which the grant date occurs - for example January 1, 2025 – November 30, 2027) is based on the TSR of the Company relative to the PSU Comparator Group. The Performance Modifier is as set out below depending on whether the Company's TSR, falls in the first, second, third or fourth quartile, relative to the PSU Comparator Group.

TSR of the Company vs TSR of Peer Group (Quartile Rank)	Performance Modifier
First	200%
Second	100%
Third	100%
Fourth	0%

TSR of any company for any performance period is measured as: (a) the average closing price of a common share of such company for the 20 trading days preceding the last day of the performance period; plus (b) the total value of dividends paid by such company, with such dividends reinvested on the applicable payment date, during the performance period; divided by (c) the average closing price of a common share of such company for the 20 trading days preceding the first day of the performance period.

In the event the Company's TSR falls:

- (a) in the first quartile, the PSU pays out at 200% of the Market Price;
- (b) in the second or third quartile, the PSU pays out at 100% of the Market Price; and
- (c) in the fourth quartile, there is no pay-out.

The PSU Comparator Group is comprised of:

ADENTRA Inc.	Olympic Steel, Inc.
Aecon Group Inc.	Reliance Inc.
Doman Building Materials Group Ltd.	Richelieu Hardware Ltd
Finning International Inc.	Ryerson Holding Corporation
MRC Global Inc.	TSX Composite Index
NOW Inc.	Worthington Steel Co.

The composition of the PSU Comparator Group is relatively small as there are no public Canadian companies which operate steel service centers or distribute a similar portfolio of energy products. We utilize some US comparators, who, while more appropriate, still operate in different geographic regions and distribute certain products which we do not. We also incorporate Canadian industrial and distribution companies who are in different businesses and are subject to varying business and commodity cycles. In addition, many of the comparators are smaller market capitalization companies who can be subject to higher volatility and more extreme variations in share price. For these reasons, the Board made the determination that payout in the second and third quartiles would be the same to mitigate both positive and adverse impacts which may arise from a peer group with different geographies, products, businesses, cycles and significant volatility.

Participants in the PSU Plan are credited with additional PSUs on each dividend payment date in respect of common shares, in an amount that corresponds to the amount of the dividend, based on the number of PSUs recorded in the participant's account on the record date for the payment of the dividend and the Market Price of the common shares on such dividend payment date.

If a participant ceases to be an employee for reasons other than death or retirement at or before age 65 (i) PSUs that are then vested will be paid within 25 days following the date the participant ceased to be an employee and, in any event, no later than December 31 of the year the participant ceased to be an employee; and (ii) PSUs that are not then vested shall terminate and be forfeited. On the death of a participant or on the retirement of a participant at or after age 65, any unvested PSUs will vest immediately and will be paid within 25 days following the date of death or retirement but no later than December 31 of the year of death or retirement. The Board may, in its discretion, following the grant date but prior to a vesting date, designate an earlier vesting date for all or any portion of the PSUs then outstanding and granted to a participant. In cases where vested PSUs are redeemed prior to their natural expiry date, they are done so at the then Market Price of the common shares and at the 100% performance modifier level.

⁽¹⁾ Compensatory value represents the Company's aggregate contributions made during the year.

Mr. Juravsky, Mr. MacLean and Mr. MacDermid participate in a defined contribution plan covering our Canadian employees, which provides that the employee contributes 1% of their base salary and the Company provides an annual contribution of an amount equal to 2% of their base salary. In addition, employees may contribute up to an additional 6% of base salary, subject to Canada Revenue Agency limits, and the Company provides a 50% matching contribution on additional amounts contributed by the employee. In 2024, we contributed \$16,186 to Mr. Juravsky's account, \$13,328 to Mr. MacLean's account, and \$14,377 to Mr. MacDermid's account. All contributions vest immediately.

401K PLAN

Mr. Reid and Mr. Bailey participate in a 401K defined contribution plan covering our U.S. employees, which provides that the Company will make an annual contribution of an amount equal to 2% of their eligible compensation to an Internal Revenue Service limit. In addition, employees may contribute up to an additional 6% of their eligible compensation and the Company provides a matching contribution of one-third of amounts contributed by the employee to a maximum of US\$4,300. In 2024, we contributed US\$11,200 (Cdn\$15,344) to Mr. Reid's account and US\$10,722 (Cdn\$14,689) to Mr. Bailey's account. All contributions vest immediately.

LIFE INSURANCE POLICY AND PENSION REPLACEMENT INSTRUMENT

In 2014, in lieu of an executive pension arrangement, we signed an agreement with Mr. Reid to fund a Whole Life Insurance Policy (the "Reid Life Insurance Policy"). In accordance with the agreement, annual premiums of up to US\$150,000 per year on the Reid Life Insurance Policy will be paid by the Company. In addition to paying the annual premiums, we have agreed to compensate Mr. Reid in the form of additional cash compensation for the grossed-up tax payable on his life insurance taxable benefit. In 2018, effective upon Mr. Reid's appointment as CEO, we signed an executive employment agreement with Mr. Reid which increased the total amount payable under the Reid Life Insurance Policy or such other pension replacement instrument, as Mr. Reid may select, to US\$350,000 annually (inclusive of any gross-up for taxes payable). Our obligation to pay the annual premiums are dependent on Mr. Reid being employed as CEO of the Company. The Reid Life Insurance Policy and other pension replacement instrument are owned by Mr. Reid and all proceeds are payable to his estate in the event of his death.

In 2024 we contributed US\$226,900 to these plans and paid Mr. Reid US\$123,100 for the grossed up tax on the taxable benefit.

CHANGE OF CONTROL AGREEMENTS

The Company has entered into change of control agreements with each of Mr. Reid, Mr. Juravsky and Mr. MacLean, described below.

DOUBLE TRIGGER CHANGE OF CONTROL AGREEMENTS

We have entered into change of control agreements with Mr. Reid, Mr. Juravsky and Mr. MacLean providing for their continued employment for two years following a change of control and for severance payments in certain circumstances in the event of the termination of their employment within two years of a change of control. Such circumstances include termination of employment by Russel Metals (other than for just cause, disability or retirement) or termination of employment by the executive officer for good reason. A "good reason" includes the occurrence of any of the following without the executive officer's express written consent: (i) the Company assigning to the executive officer duties inconsistent with his / her position, duties, responsibilities and status with the Company immediately prior to the change of control; (ii) a reduction by the Company to the executive officer's annual salary; (iii) failure by the Company to continue in effect any benefit, bonus, incentive or retirement plan in which the executive officer is participating immediately prior to the change of control; (iv) the Company relocating the executive officer to any place other than the location at which he / she performed his / her duties for the Company immediately prior to the change of control; (v) any breach by the Company to any provisions of the Change of Control Agreement; or (vi) any failure by the Company to obtain the assumption of the Change of Control Agreement by a successor or assign of the Company. A "change of control" includes the acquisition of effective control by a person or group of persons acting in concert or a determination by the Directors that a change of control has occurred or is about to occur. For such purpose, any person or group holding securities which entitle such holder or holders to cast more than 25% of the votes attaching to all shares in the capital of the Company which may be cast to elect Directors shall be deemed to be in a position to exercise effective control. A change of control will also have occurred if incumbent Directors cease to constitute a majority of the Board of Directors. For this purpose an incumbent Director is any member of the Board of Directors of the Company who was a Director immediately prior to the event which gave rise to the change of control, and any successor to an incumbent Director who was recommended or elected or appointed to succeed an incumbent Director by the affirmative vote of a majority of the incumbent Directors.

Upon termination under these circumstances, the executive officer is entitled to receive a lump sum payment of two times his or her current salary, and two times the average annual amount paid or payable to the executive officer pursuant to any profit sharing, cash incentive or bonus program during the last 36 months. The executive officer is also entitled to receive an amount on account of the value of all SARs and all share options or other rights to acquire common shares held by the executive officer or to which he or she would have been entitled, an amount on account of pension benefits to which the executive officer would have been entitled and certain other benefits. In addition, if the executive officer holds options for the purchase of common shares or SARs in the Company ("Unexercised Rights"), all Unexercised Rights so held that were not exercisable at the date of termination, shall be accelerated so that such Unexercised Rights become immediately exercisable and all Unexercised Rights shall remain exercisable for 180 days following the date of termination. Similarly, RSUs and PSUs become fully vested and are cashed out within 25 days from termination.

The following table sets out the payments to which each of Mr. Reid, Mr. Juravsky and Mr. MacLean would have been entitled had they been terminated on December 31, 2024 within two years of a change of control of the Company:

CORPORATE GOVERNANCE

Board Renewal Policy	<p>Our articles require us to have a minimum of seven and a maximum of 12 Directors.</p> <p>The Company has adopted a Board renewal policy whereby Directors will not generally stand for re-election after reaching the age of seventy-five years. In addition, the Company's policy is to target total average tenure of its non-executive Directors (i.e. total years service of non-executive Directors on the Board divided by the number of non-executive Directors) to be approximately 10 years or less. Neither of these two objectives represents a bright line test, and the Board may at any time or from time to time, deviate from these objectives where it believes that it's in the best interest of the Company to do so, but both are designed to encourage and support a continuous active program of Board member renewal, recruitment and retirement planning. At this time, the Board does not believe that fixed term limits for Directors are necessary or appropriate, nor does it believe that Directors should expect to be re-nominated annually prior to age 75. The Board believes that a balance must be struck between ensuring that there are new ideas and diverse viewpoints at the Board and maintaining the insight, experience and other benefits of continuity contributed by longer-serving Directors. For the purposes of this policy, in the event an executive Director subsequently becomes a non-executive Director, only such individual's tenure as a non-executive Director shall be included for the purposes of calculating the total average tenure of non-executive Directors.</p> <p>The average tenure of the non-executive Directors as of the date of this Circular is 8.53 years and if all the non-executive Director nominees are elected the average tenure of the non-executive Directors immediately following the Meeting will be 7.57 years. Mr. Reid, who is an executive Director, is excluded from this calculation and Mr. Hedges' tenure as a non-executive Director is calculated from May 2, 2018, the date of his retirement as an executive of the Company.</p> <p>The Company also manages Director tenure through a Director evaluation and assessment process, and through a demonstrated and ongoing commitment to the process of Board renewal. The evaluation and assessment process, which includes Board and Committee evaluations and a peer evaluation process, is designed to identify any circumstance in which a Director is not making a sufficient contribution. It is the responsibility of the Company's Board to remove Directors who are not performing, rather than simply relying on Director term limits or a Director being required to resign due to age. Each Director's term expires no later than the next annual shareholders' meeting. The Company also manages Director tenure by disclosing each Director's tenure and age in the Company's Information Circular, allowing shareholders to make an informed decision relating to the election of nominee Directors.</p>
Board Committee	<p>Russel Metals' Board committees are the Audit Committee, NCG Committee, MR&C Committee and EMH&S Committee.</p> <p>The Board has adopted charters for each of these committees and pursuant to these charters, except for the EMH&S Committee, all members of the Committees are required to be independent.</p> <p>The members of these committees are all independent. More information regarding the Board's committees can be found under "Committees of the Board of Directors" on page 18 of this Circular.</p>
