Attn: Ladish Valves – Product CRN Submission Renewal

This letter aims to summarize the included submission and to clearly define what we wish to accomplish. The valve products we are seeking registration on are as follows:

- Forged Steel Product Line as established in Catalog 221
- High Pressure Forged Steel Product Line as established in Catalog 231
- Cast Steel Gate, Globe and Check Valves as established in Catalog 821
- Flanged Floating Ball Valve as established in Catalog 421

This submission is a renewal of our current 0C09124.2 which was first approved May 28, 2008. The products included in the catalogs all adhere to ASME B16.34 design and material standards. The impetus for pursuing our registration is due to the renewal of our current CRN. We have multiple orders in house for many of these specific products.

We thank you for your consideration. If clarification is needed, please don't hesitate in reaching out. Additionally, we are asking that ABSA handle the distribution of materials to additional provinces.

Sincerely,
