This letter serves as the official copy of your licence. Below are the details of your licence:

Printed on November 02, 2026

Licensed Contractor Name: Apex Valve Services

Licence Number: LBP0208380

Technology: Boiler, Pressure Vessel, Refrigeration

Class of Work: Class SRV

Issue Date: November 01, 2026

Expiry Date: November 01, 2027

Your licence terms and conditions are listed below:

This contractor's licence is limited to the scope of work detailed in the accepted quality control program. All activities performed under this licence must be done in accordance with the accepted quality control program.

This licence remains active until November 01, 2027 unless conditions of your licence are not maintained.

Your business information will be added to our online registry of licensed contractors. It can be found on our website under "Find a Licensed Contractor".

As a licensed contractor, you must:

1. Obtain a licence for every technology in which you perform regulated work.
2. Maintain your licence in good standing by renewing your licence prior to expiry.
3. You (and those who do regulated work for you) must maintain current knowledge of the Safety Standards Act, relevant regulations, directives, information bulletins, safety orders, code and any other relevant material published by Technical Safety BC.
4. Know the content of your work and only perform regulated work you are licensed to perform.
5. Maintain awareness, understanding and compliance with any terms and conditions added to your licence.

6. Hire qualified workers and ensure they have the required knowledge. Ensure only qualified workers perform regulated work under your licence.
7. Ensure you have obtained and paid for the correct permit (or equivalent), ensure that it stays in good standing, and do not perform work outside the scope of the permit.
8. Request required inspections and make the required declarations.
9. Ensure all regulated equipment is approved.
10. Report all hazards and incidents to Technical Safety BC.
11. Fulfill any applicable licence reporting requirements.
12. Cooperate with safety officers and safety managers and comply with all requirements issued by a safety officer or safety manager.
13. Correct all non-compliances on or before the due date(s) set by a safety officer.
