COMPANY UPDATE - SEPTEMBER 2025

CAUTIONARY STATEMENT ON FORWARD-LOOKING INFORMATION

Certain statements contained in this presentation constitute forward-looking statements or information within the meaning of applicable securities laws, including statements as to our future capital expenditures, our outlook, the availability of future financing and our ability to pay dividends. Forward-looking statements relate to future events or our future performance. All statements, other than statements of historical fact, are forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe" and similar expressions. Forward-looking statements are necessarily based on estimates and assumptions that, while considered reasonable by us, inherently involve known and unknown risks, uncertainties and other factors that may cause actual results or events to differ materially from those anticipated in such forward-looking statements, including the factors described below.

While we believe that the expectations reflected in our forward-looking statements are reasonable, no assurance can be given that these expectations will prove to be correct, and our forward-looking statements included in this presentation should not be unduly relied upon. These statements speak only as of the date of this presentation and, except as required by law, we do not assume any obligation to update our forward-looking statements. Our actual results could differ materially from those anticipated in our forward-looking statements including as a result of the risk factors described above and under the heading "Risk" in our MD&A and under the heading "Risk Management and Risks Affecting Our Business" in our most recent Annual Information Form and as otherwise disclosed in our filings with securities regulatory authorities which are available on SEDAR+ at www.sedarplus.ca.

Risk Factors - We are subject to a number of risks and uncertainties which could have a material adverse effect on our future profitability and financial position, including the risks and uncertainties listed below, which are important factors in our business and the metals distribution industry. Such risks and uncertainties include, but are not limited to: volatility in metal prices; cyclicalities of the metals industry; future acquisitions; product claims; significant competition; sources of supply and supply chain disruptions; manufacturers selling directly; material substitution; failure of our key computer-based systems; cybersecurity; credit and liquidity risk; currency exchange risk; restrictive debt covenants; the unexpected loss of key individuals; decentralized operating structure; labour interruptions; laws and governmental regulations; litigious environment; environmental liabilities; climate change; carbon emissions; health and safety laws and regulations; and common share risk.

NON-GAAP MEASURES

In this Information Package we use certain financial measures that do not comply with International Financial Reporting Standards (IFRS or GAAP) or have standardized meanings, and thus, may not be comparable to similar measures presented by other issuers, for example EBIT and EBITDA and Other Information in the Financial Summary are Non-GAAP measures or ratios. Reference should be made to our MD&A for further discussion of Non-GAAP measures and ratios. Management believes that these Non-GAAP measures may be useful in assessing our operating performance and as an indicator of our ability to service or incur indebtedness, make capital expenditures and finance working capital requirements. EBIT and EBITDA should not be considered in isolation or as an alternative to cash from operating activities or other combined income or cash flow data prepared in accordance with IFRS. EBIT and EBITDA and a number of the ratios provided under Other Information are used by debt and equity analysts to compare our performance against other public companies.

DEFINITIONS:

Cash from Working Capital - represents cash generated from changes in non-cash working capital.

EBIT or Operating Profits - represents net earnings before interest and income taxes.

EBITDA - represents net earnings before interest, income taxes, depreciation and amortization. Adjusted EBITDA excludes non-cash asset impairments or non-recurring items.

Free Cash Flow - represents cash from operating activities before changes in non-cash working capital less capital expenditures.

Gross Margin - represents revenues less cost of sales.

Gross Margin Percentage - represents gross margin over revenues.

Inventory Turns - represent annualized cost of sales divided by ending inventory.

Liquidity - represents cash on hand less bank indebtedness plus excess availability under our bank credit facility.

Selling Price per Ton - represents revenues divided by tons shipped.

Tons Shipped - represents revenue volumes in our standardized metal service center unit of measure, which is imperial tons.

Return on Invested Capital - represents EBIT divided by average invested capital (net debt plus shareholders' equity).

Net Debt – represents total short term and long-term debt less cash and cash equivalents.

DIVERSIFIED BUSINESS

Locations – 140 Branches

Suppliers

Product Mix

**Transactional Business Model:
Small Avg. Order Size/Large Number of
Transactions/Low Customer Concentration**

- ~45,000 customers; Top 10 customers <10% of revenues
- Average >3,300 MSC transactions/day
- Average MSC segment invoice <\$3,500

INCENTIVE COMPENSATION TIED TO RETURN ON CAPITAL

(1) Figures exclude mark-to-market adjustments for stock-based compensation.

- A large number of our employees participate in a profit-sharing program, with bonus pools tied to their local returns on net assets.
- This approach is a significant element of the pay-for-performance and decentralized culture at Russel.
- The variable incentive compensation moves up and down with operating results.

BUSINESS TRANSFORMATION

Illustration of Historical Results

Illustration of Expected Impact from New Approach

Actions

- Divested underperforming business units and repatriated \$400 mm of underperforming capital
- Improvement in working capital management (better turns and eliminated risk of OCTG/line pipe).
- Reinvested in value-added equipment, facility modernizations, and acquisitions (Sanborn, Boyd, Samuel, Tampa Bay)
- Strengthened the balance sheet

Impacts

- Raise the cycle floor and ceiling
- Reduce volatility
- Grow the business
- Reduce cost of capital

IMPACT OF PORTFOLIO CHANGES

- The portfolio changes over the past few years significantly reduced our EBITDA variance between the peak and trough on both an absolute basis and relative to our peers.

Note: Results reflect the inclusion of non-recurring items (typically charges) and exclude LIFO income/expense (ie. FIFO based inventory methodology for those US companies that report both LIFO and FIFO). To calculate the peaks/trough/variances, the highest/lowest EBITDA within the lookback periods were compared to the average 3-year quarterly EBITDA of the lookback periods.

WORKING CAPITAL MANAGEMENT/COUNTER CYCLICALITY OF FCF

- Working capital management is a long-term strategy and results in countercyclical cash flows.

ESG FOCUS

Summary From Sustainability Report Updated April, 2025

VARIANCE ANALYSIS: EBITDA Q1 2025 VS. Q2 2025

SEGMENT BREAKDOWN: OPERATING RESULTS

MSC:

- Q2 had the benefit of strong pricing and volumes
- Prices, margins and EBIT were up vs. Q1

Energy Field Stores:

- Slow start to 2025, but it picked up in March and continued into Q2
- Revenues, margins and EBIT were up vs. Q1

Distributors:

- Market conditions were good
- Comparable revenues and EBIT in Q2 with Q1

SERVICE CENTER RESULTS

- Q2 2025 tons were a near quarterly record.
- Price realizations per ton and CGS per ton were both up -- increase in gross margin per ton to \$487 (up \$57/ton vs. Q1) and EBITDA per ton to \$200 (up \$52/ton vs. Q1).

INVENTORY TURNS

- Total inventory turns in Q2 were comparable with Q1.

WORKING CAPITAL MANAGEMENT: INVENTORY

- Total inventory was up slightly vs. Q1 reflecting lower tonnage offset by higher prices/ton.

LIQUIDITY AND CAPITAL STRUCTURE SUMMARY

- Significant balance sheet flexibility.
- Completed bank debt extension and removed springing lien provision in April.
- All debt is unsecured with no financial covenants on long term debt.
- Grew book value per share.
